DanskLibrod Energy Limited

OUR MISSION

To become the preferred Oil and gas Company across the African region, delivering world class service, & efficiency.

GOALS & STRATEGIC OBJECTIVES

At DanskLibrod Energy Limited, we believe that our partnerships with established oil & gas companies will greatly enable us to take advantage of unique and profitable opportunities in the market place.

A few of the strategic goals that DanskLibrod would like to achieve are:

- To become a world class company by building partnerships with regional and international oil trading companies.
- To work closely with financial institutions locally and internationally to support our ventures.
- To acquire strategic assets to further cement and establish a profitable market share across the industry

DanskLibrod Energy Limited

INTRODUCTION

DanskLibrod Energy Limited is an oil and gas company which is in the business of crude oil trading, Exploration and production of Crude Oil, LPG and other natural resources, and trading in hydrocarbons and other minerals.

We also provide incomparable consulting and development. We provide full service consultation which includes: Trading opportunities, researching the best option for pre-financing of trade, asset management and logistics within the upstream sector.

DanskLibrod Energy Limited has identified the present and future opportunities in both the upstream and downstream sector of the Nigerian oil and gas industry and is poised to maximize these inherent opportunities that are available in West and Sub Saharan Africa.

Building on over 50 years of combined experience in oil trading, provision of oil field services, asset management and asset acquisitions. We work across the regions that our founders and the senior management have experience in and capitalise on those relationships within governments, international and regional oil & gas companies, energy companies and financial institutions that we have garnered over the years. We have a number of divisions with clear focus on specific business streams in the energy sector across a variety of regions.

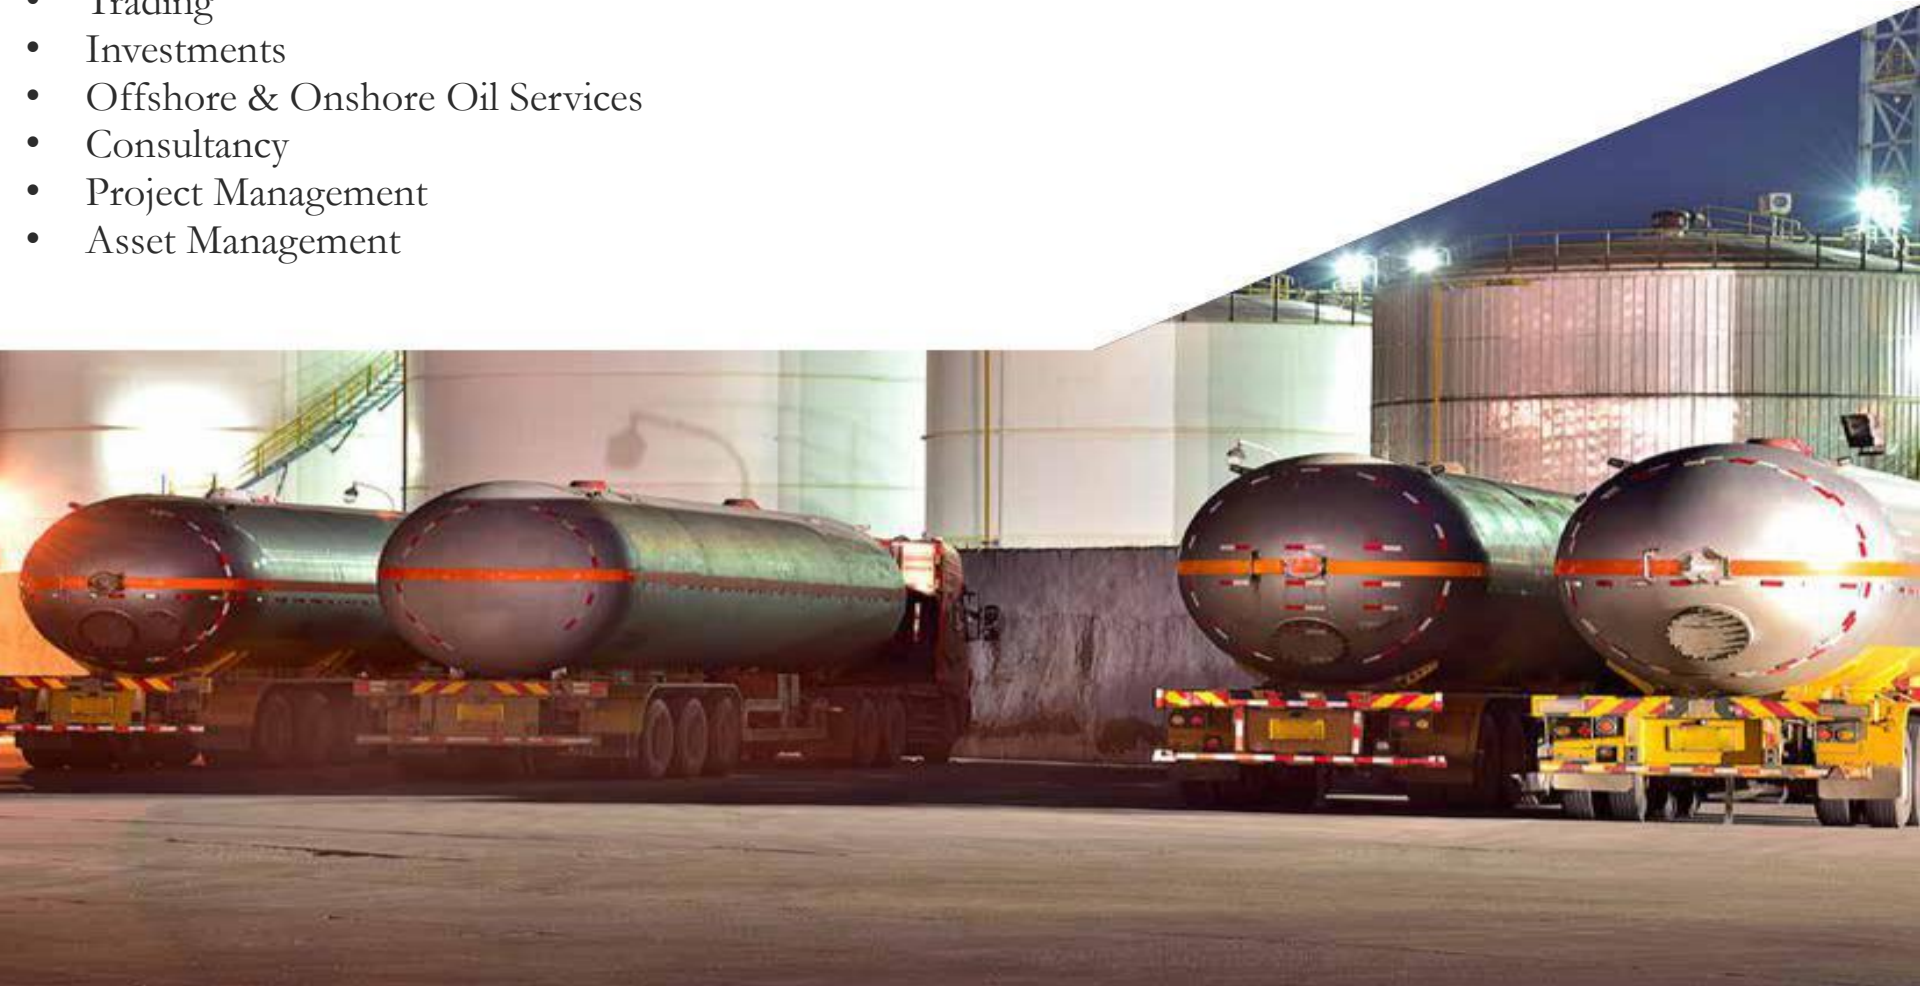

DanskLibrod Energy Limited

PROJECT MANAGEMENT SERVICES

Our project management services are driven by the quest to provide efficiency to clients by reducing cost per barrel while guaranteeing shareholder's returns on investments. In order to deliver overall objectives of shareholders, DanskLibrod leans on our core project management division to drive efficiency to achieve project timelines and AFE budget.

DanskLibrod Energy Limited

OPERATIONS

ASSET MANAGEMENT SERVICES

As part of our offerings, we provide asset management services to oil & gas operators and related partners experiencing funding challenges but possess prolific assets that can be sweated out through intervention, re-entry opportunities and new drills.

In the process, production risk could be taken in form of risk and reward to provide high returns to shareholders while taking cognizance of technical and commercial risk involved.

DanskLibrod Energy Limited

HEALTH & SAFETY

DanskLibrod is concerned with protecting the health, safety and welfare of its employees and the population at large.

We are committed to ensuring the provision of a safe and healthy environment for everyone. We review our health and safety practices regularly to improve our operating practices to align with current trends.
